Dear Past Executive of the Sien Lok Society:

The Sien Lok Society has been established since 1968. Since that time, it has operated under the initial constitution. It is now time to set out new guidelines and objectives for your organization.

The Society can be proud of its accomplishments. From the original need for someone to step forward to preserve the Chinese Community and Chinatown, to the most recently developed Sien Lok Park. The establishment of scholarships at S.A.I.T., Mount Royal College, University Of Calgary, and the Bridge Foundation, the annual seniors visitations, as well as showing financial support and participation with many other groups and associations.

In order to continue this great work, it is time to re-examine our goals and future. To allow us to make informed and knowledgeable decisions about the future of our organization, we must examine our history and the original vision of our past members. We would be honoured to have the benefit of your wisdom, experience, and memories for a historical review of an organization that you helped build.

You are cordially invited to participate in a Historical Scan of the Sien Lok Society of Calgary's rich and varied past.
